

A roadway to new interactive  
digital education system

## Why digitalization is the ultimate solution to our archaic learning models?

To be successful in the workplace of the future, people will need to have the right digital education. Be it in school, at university or at job, digitization of education, interactive classrooms, and transformative strategies is the only solution that can build the future of tomorrow. D-Square Solution offers a wide variety of products and cutting-edge solution to transform learning from an academic exercise to an engaging experience.

## Introducing D-Square Solution

Founded in 2016, D-Square Solution is a mission-driven consulting and innovative product-based company revolutionizing the education system in India. With a comprehensive suite of instructional solutions, smart products, and end-to-end consulting, we aim to use emerging technologies to improve education for children through interactive learning.

Empowering a collaborative and constructivist approach in combination with digital learning techniques, smart products, and advanced strategies, we strive to offer innovation, scalability, and affordable solutions to the education community.

### Vision

To accomplish enabling K12 stakeholders and CSR corporate with holistic education opportunities thus consistently improving the quality of education as a social commitment towards the community.

### Mission

We aim to become one of the leading education consultants by facilitating inclusive and equitable quality education and promote lifelong learning opportunities to uplift the society.

# Our Products

*Building tomorrow's future beyond books with the learner-centric education consulting approach!*

## Tech Class

*An interactive classroom solution empowering teachers*

Tech Class is an innovative and intuitive digital solution for enhanced learning with an interactive flat panel, interactive board, whiteboard, short/long throw DLP projector, and speakers, etc. It is designed to transform the learning environments in today's modern classroom with path-breaking solutions.

## Science Center

*Nurturing science proficiency in an interactive way*

Science center is an innovative science lab solution with hands-on 'learning through experience' concept that puts experience, imagination, and motivation back in science.

While living up to the true meaning of a lab, our practical solution provides a better understanding of all science and maths concepts seamlessly with proper working models.

Empowering interactive learning through a constructivist approach in combination with cutting-edge technologies. At D-Square, digital education is blended to perfection to render 3600 learning through adaptive platforms and smart school products.

## Planetarium

*Digital gateway to understand Planetary Science*

The Planetarium dome is a new way of learning about the magical world of astronomy making it fun and an unforgettable experience. The virtual dome delivers a revolutionary way to experience the knowledge about science, astronomy, stars, galaxy geology, physical geography, and more.

## Math-a-Magic

*Making maths learning fun & interactive for K-8 learners*

D-Square Math-a-Magic is an adaptive, digital math program designed to complement classroom instruction and deliver results. It is one-of-its-kind math curriculum system making mathematics learning fun and relevant with an engaging game-like activity. It is one of the fastest mathematics systems in the world enabling students to solve sums per minute and even quick and accurate results are provided.

# Our Solutions

*Learning today, leading tomorrow's modern classroom with experiential learning and a set of consulting solutions!*

Empowering continual improvement with innovative classroom strategy and consulting solutions. Elevate the child's knowledge with endless learning possibilities in combination with innovative solutions

## Turnkey Education Consulting

*Holistic solution for operations management*

D-Square Solutions offers turnkey educational consulting, strategic planning, curriculum consulting, platform suggestions, STEM solutions, and operational support to various schools government bodies, CSR organizations, and other children development organizations. It helps promote quality education while making the learning experience challenging, engaging, and inspiring for the learners.

## K-12 Curriculum Solution

*Holistic curriculum planning and strategizing*

Take your K-12 education to the next level with our customized educational content development services. Our comprehensive solution provides opportunities to analyze, act, and learn through impactful audio-visually, personalized activities, simulations, lessons, interactive books, plans, assessment's, and more.

## DSTEM Self-learning Solution

*Activity box that guarantee fun and experiential learning*

D-Square STEM (Science, Technology, Engineering, and Mathematics) self-learning kits for grade 2-12 are perfect DIY solutions that deepens the core concepts of students through playful engagement. Enhancing the creative, practical, and analytical intelligence of a child, STEM education makes self-learning fun and interactive with hands-on exercises.

## Life Skill Program

*Empowering skill development through interactive activities*

Life Skill Programme is the new mantra of Indian education that assists students to learn important life skills required to more effectively manage the challenges in their lives. Delivered in primary and secondary students and to children in the government schools, our program includes the overall development of young children in important areas of life.

*Our mission is to prepare students, teachers, and corporates for a world that is being transformed by a host of emerging technologies. We connect people, processes, and technologies to drive meaningful transformation in teaching and learning.*
